

# FIELD WORK CONTRACTOR – EXPRESSION OF INTEREST

The Lillooet Regional Invasive Species Society is creating a list of eligible contractors that could deliver our field program. The work includes inventory, surveys and mechanical removal of invasive plants in the northern St'at'imc Territory including Squamish Lillooet Regional District – Areas A & B. Preference will be given to those who have direct experience with invasive plant removal and digital data collection. LRISS requires that the contractor have their own transportation for remote roads as well as all necessary equipment. We also require proof of registration with Worksafe BC.

All eligible contractors will be placed on a list and contacted regarding opportunities for work.

**Please submit all expressions of interest  
and 2 or more references to  
Sue Senger, LRISS Chair  
via email: [info@LRISS.ca](mailto:info@LRISS.ca)  
Deadline February 25, 2022**
